Welcome from Not in our community

We realise that grooming and exploitation are scary and serious subjects, but we hope that today you get involved, enjoy yourself and share ideas.

Today we'll cover stories from survivors of exploitation, hear from the police and people who support victims to give you lots of activities to help you learn how you can protect yourself and friends.

This booklet is for you to keep. As you learn and complete the activities you will become a Not in our community Ambassador!

If you have any questions about ANYTHING to do with grooming or issues raised today, feel free to approach a member of our team or an adult on your table.

What is grooming?

Grooming is a process of getting someone ready to do whatever is asked of them by their abuser. It means working to build an emotional connection, complete trust and reliance, often isolating the victim completely from their support network – friends, family etc.

Once a person has been groomed they can then be led into a number of situations they may not otherwise enter – such as sexual exploitation, criminal exploitation, extremism or financial exploitation.

What are the signs of grooming?

- Being secretive about who they are talking to, and where they are going
- Often returning home late or staying out all night
- Sudden changes in appearance, such as wearing more revealing clothes
- Becoming involved in drugs or alcohol, particularly if supplied by older men or women

- Mood swings
- Seeing their usual friends less
- Appearing controlled by their phone
- Hiding their computer or phone screen when you are near it
- Using sexual/criminal language you wouldn't expect them to know

What are the signs of exploitation ?

They would still show some signs of grooming plus some new signs:

- Becoming distant from family
- Regularly missing school and/or going missing from home
- Becoming friends with older men and women
- Having new things you wouldn't expect them to be able to afford themselves or be given by parents

- Having more than one, or a secret phone
- Regularly catching sexually transmitted infections and/or repeat terminations/emergency contraception
- Unexplained injuries such as bruising
- Mood swings
- Self-harm or suicide attempts

What is exploitation ?

Sexual or criminal exploitation is when a person is exploited for money, power or status. This abuse is often committed after a period of time where the victim is groomed. Victims could be groomed for a substantial amount of time before they are sexually or criminally exploited.

They may receive gifts or money, be invited to parties, become a part of a protective gang (seen as a family) and be gifted alcohol or drugs. The exploitation begins when they are asked to do something in return. It can be hard to tell if someone is in an exploitative relationship. The victim will often believe that they are in a caring relationship and the signs of exploitation can also be the signs of a number of different things.

Exploitation is often a hidden crime; victims often feel blame or unable to escape from their situation. Fear and dependency can stop them coming forward.

Rather than having a go at your friend, or getting frustrated, you need to help them see that their situation might be dangerous. This can be really hard and you will need to be persistent, understanding and caring.

Instead of making judging statements like, "only an idiot would believe that", try getting them to question their behaviours and decisions and highlight what might be risky. Which of the following questions might be a good place to start? (Clue: more than one of these is incorrect)

- A. How is everything going?
- B. Do you feel daft knowing that they tricked you?
- C. I've missed hanging out with you, tell me what your new friends are like?

- E. What would happen if you said no?
- F. Do you feel safe/enjoy it?
- G. Why are you being so stupid?

Alfie's Story

A short film about a young boy groomed and criminally exploited by drug dealers. It is based on real life events, co-written with survivors and made with a local cast to show how grooming and child criminal exploitation works and how we can look out for each other. You can watch Alfie's Story on YouTube or at www.notinourcommunity.org

What is Criminal Exploitation?

"When someone you trusted makes you commit crimes for their benefit." D, aged 12.

It is when a young person finds themselves being asked, or forced, to do criminal things for someone else. Whilst initially they may feel part of a group or even a family, over time they will be told that there is no other option, that they owe someone, owe money or should do things out of loyalty.

Criminal exploitation can involve a young person moving drugs, around their local area or sometimes travelling across the country. The exploited person can be made to sell drugs, transport weapons or carry out other criminal activities, such as assaulting people and stealing.

It's a complicated issue because although what a young person is doing can sometimes be criminal behaviour, if they are being manipulated and controlled they are actually a victim of crime themselves.

74% of you said that **Not in our community had** helped you identify where to seek help if you were to recognise someone at risk of being groomed or exploited

"[Not in our community] helped me by showing ways in which I am making myself vulnerable, so I changed my behaviour"

"I warned someone about who they were speaking to online and they stopped, and they're perfectly fine now!"

"I stopped a 15-year-old friend going out in a car with a 24-year old male and told her I would tell her parents"

Who are my trusted adults?

Use the information below to define 3 adults you could trust to speak to. It's important for you to personally know which adults you can speak to if you ,or someone you know, is in danger and this doesn't just go for grooming and exploitation!

A trusted adult should act with your best interests in mind.

A trusted adult is someone who has appropriate boundaries, listens and respects your feelings and who helps you when you need it without asking or threatening you for anything in return. Trusted adults can be:

Youth leader

A teacher or member of staff at school

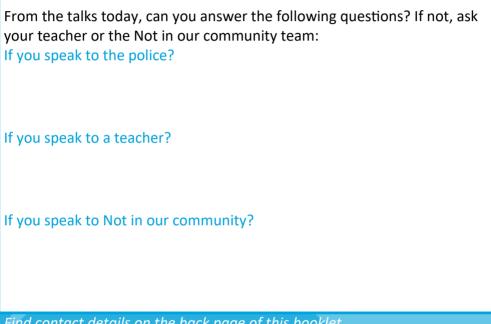

Older siblings

Your GP / Nurse

Family members

What happens when grooming or exploitation is reported?

Every case is different so we can't guarantee what will happen when a case is reported. Depending on who you call, someone will talk to you about your concerns and may ask for further details so they can investigate further. The person on the other end of that phone will be specially trained and will deal with the victim and their family sensitively.

Find contact details on the back page of this booklet.

Keeping your identity hidden Some services will offer advice and support anonymously, like Crimestoppers, but most cannot guarantee it. All services will act with a victim's best interests in mind. If you're concerned about hiding your identity, you can find out more about a service's policy for anonymity by contacting them directly.

Remember if you or someone you know is in danger - call 999 immediately.

What's the plan?

Part of today's aim is for you, as Not in our community Ambassadors, to create a plan of what you're going to do to spread the word to your peers about protecting each other against sexual exploitation.

Use this space for notes, scribbles and ideas for your group.

Here's some things to consider doing:

Create school display boards
Hold assemblies
Create computer backgrounds
School paper/newsletter articles

Create stories and videos
